2. Moulec was told that all SDECE military reports are sent to War Minister Paul Coste-Floret (MRP) and to the General Staff. He was informed that he should ask them for reports. The Admiral also was advised that all non-military information handled by SDECE was directly supervised by the Presidency and the Foreign Ministry. Therefore, it was explained, the SDECE has no authority to pass reports on to other Government agencies. [REDACTED] this failure of Billoux to penetrate the SDECE has brought no repercussions and that none is expected immediately.
